

SpillEater

The Natural Spill Absorbent

ACID/CAUSTIC
ABSORBENT

SpillEater Acid/Caustic Absorbent

SpillEater Acid/Caustic Absorbent is a natural renewable cotton⁽¹⁾ plant bi product which is engineered to pick up acid or caustic spills, i.e. battery acid or ammonia, suppress odors/fumes, and react with spilled material to make the spill safer to handle. This absorbent is especially designed for battery charging station, acid based cleaners, and chemicals.

Rated

#1

Spill Cleanup

- ✓ Absorbs up to 20% faster and uses up to 61% less absorbent material
- ✓ Absorbs 6X its weight

20 years of absorbent technologies

Ted Dickerson, President, chemist, and patent holder from Multigraphic Industries has been serving the oil drilling industry for over 20 years with engineered absorbent products. These products are US manufactured in Mississippi and Texas for distribution worldwide. SpillEater absorbent products are engineered based on the same technologies but for retail and commercial customers. This brings a 20-year tested and reliable absorbent to small spill applications. As Ted says, "It's the very best you can do for the environment and the people who handle spills."

SpillEater absorbent is available in a complete line of packaging options. Spill pickup supplies and kits are also available – see www.spilleater.com.
