SPARTA® SPECTRUM® COLOR-CODED
BRUSH PROGRAM SPECIFICALLY
DEVELOPED TO SUPPORT YOUR
HACCP PROGRAM

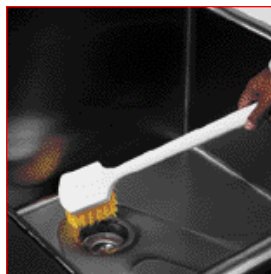

SPARTA® SPECTRUM® COLOR-CODED BRUSHES YOUR PLANT SANITATION SOLUTION . . .

Spectrum® Color-Coded Brush Rack 40735(14) and Brushes help prevent cross-contamination.

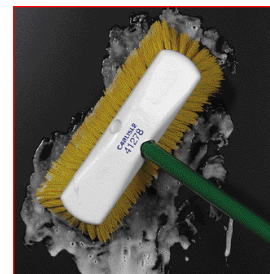

All Purpose 8" Utility Scrub Brush 40541(14) scrubs away built up residue on anything from counters to pots and pans.

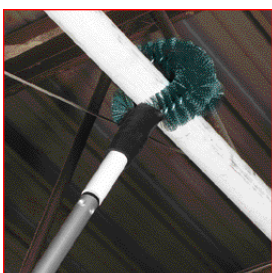

All Purpose 20" Utility Scrub Brush 40501(04) with long handle is the most versatile cleaning tool available today.

Round Tank Brush 41200(00) with 42" Plastic Handle 41010(00) provides thorough cleaning action from all angles.

Flo-Thru Wall/Vehicle Brush 41278(04) with 60" Metal Flo-Thru Handle 40240(00).

Spectrum® Clean-In-Place Brush 41390(09) with Handle 40251(00) cleans curved drains, tubes, pipes, and equipment.

Spectrum® Elbow & Fitting Brush 40162(05) with 2" dia. cleans areas inside fittings and valves.

Spectrum® 16" Round Brush 40001(02) cleans beverage servers, vats, crocks, and other round surface equipment in all directions.

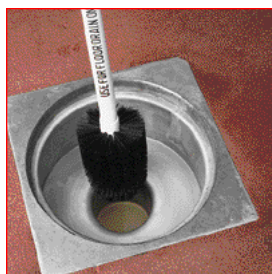

Valve Brush 40007(05) provides greater cleaning control for chutes and valves.

Hi-Lo™ Floor Scrub 40423(04) with 60" Fiberglass Handle 40225(04) provides maximum cleaning at 3 different angles.

The Hand & Nail Brush 40020(00) removes dirt, bacteria, or other contaminants trapped beneath fingernails and cuticles.

Floor Drain Brush 40146(00) has 36" Long Plastic Handle 40236(00); keeps drains and floor sinks clean and sanitary.

Sparta® Spectrum® Color-Coded StorPlus™ Food Storage Boxes & Lids helps segregate food and prevent cross-contamination. Refer to CSMP Catalog for product listing.

Storage Bins BIN27, BIN36, & BIN44 are convenient for storing large quantities of products, supplies, etc.

Fold 'N Go® Carts SBC1521 and SBC2031 are ideal for transporting heavy loads with ease; folds and unfolds in a single, quick, and easy motion.

PROPER BRUSH USE, CARE, AND MAINTENANCE

"The use of brushes should be segregated. Brushes should be maintained in good repair, properly stored when not in use and sanitized in between uses."

– U.S. Food and Drug Administration

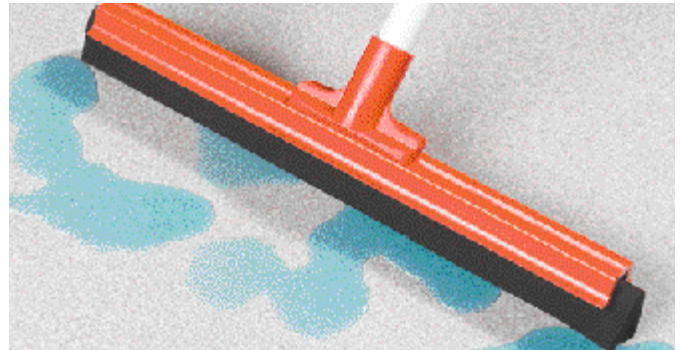

SPECTRUM® BRUSHES ARE EASY TO CLEAN & MAINTAIN.

- Wash, rinse, sanitize, and air dry between every use.
- Store brushes on a brush rack when not in use.
- Check the condition of your brushes on a regular basis and evaluate cleaning performance.
- Replace worn and matted brushes every 90 days.

PLANT SANITATION SOLUTION

The Fight Against Cross-Contamination

In food processing operations, food safety is at risk when employees fail to take the proper steps to prevent cross-contamination and maintain good personal hygiene. The U.S. Department of Agriculture through its Hazard Analysis Critical Control Points (HACCP) has identified where the risks are most likely to occur in your operation, recommends procedures to reduce the risks, and documents that the procedures are followed.

18" Sparta® Spectrum® Color-Coded Squeegee (41567) is 100% hygienic. The rigid all-plastic frame is available in 5 colors and provides easy removal and replacement of foam blade without removing any screws or fasteners.

4-Ply Rayon Cut-End Wet Mop Heads, available in 4 sizes, teamed with Sparta® Spectrum® Color-Coded Quik Release™ Mop Handles (41664) in 5 colors are ideal additions to any HACCP program.

Sparta® Spectrum® Color-Coded Omni Sweeps™(41890, 41891) partnered with the Sparta® Spectrum® 60" Self-Locking Flex-Tip™ Fiberglass Handles (40225) are available in 5 colors and provide zone designation to help prevent cross-contamination.

Your Comprehensive Plant Sanitation Solution

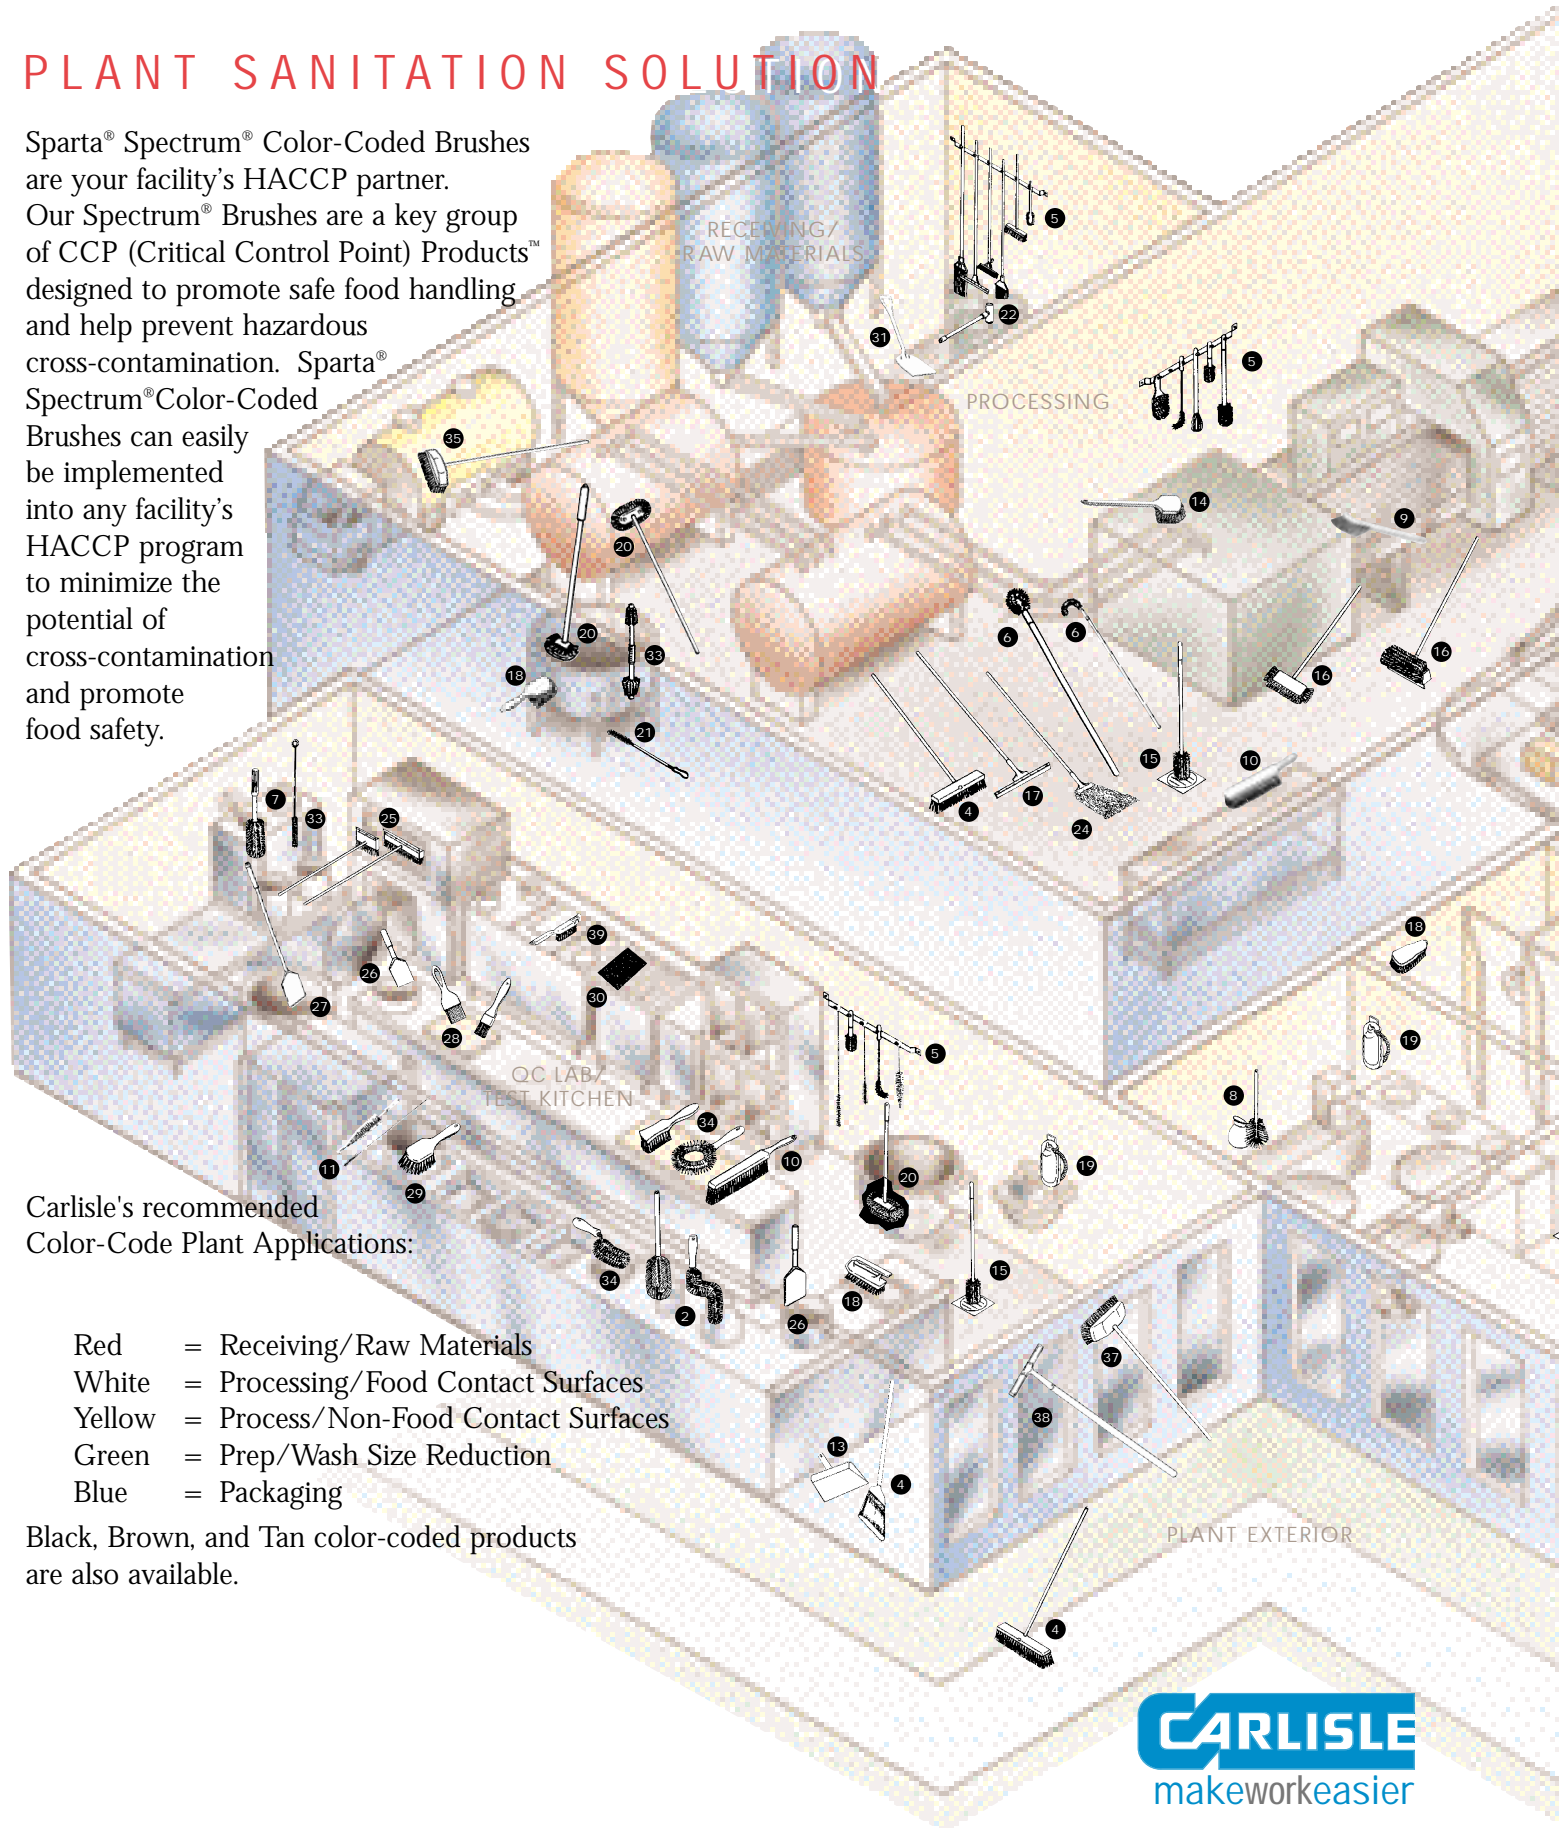

With the move toward HACCP based inspections, your facility needs an innovative **Plant Sanitation Solution** to meet today's food safety requirements. Carlisle Sanitary Maintenance Products, the leader in food safety with critical control point products, offers more than 2,000 specialized brushes and easy-to-use cleaning tools that provide optimum cleaning results.

Carlisle's Sparta® Spectrum® product line makes it simple to develop an effective, well-organized plant sanitation program, designed to support your HACCP initiatives. The Sparta® Spectrum® color-coded brushes make it easy to establish highly visual, color-coded work zones from receiving to processing, to packaging to applications outside these work zones to minimize and control the potential of bacterial or chemical cross-contamination.

Carlisle's Sparta® Spectrum® Color-Coded Brushes are your comprehensive **Plant Sanitation Solution.**

PLANT SANITATION SOLUTION

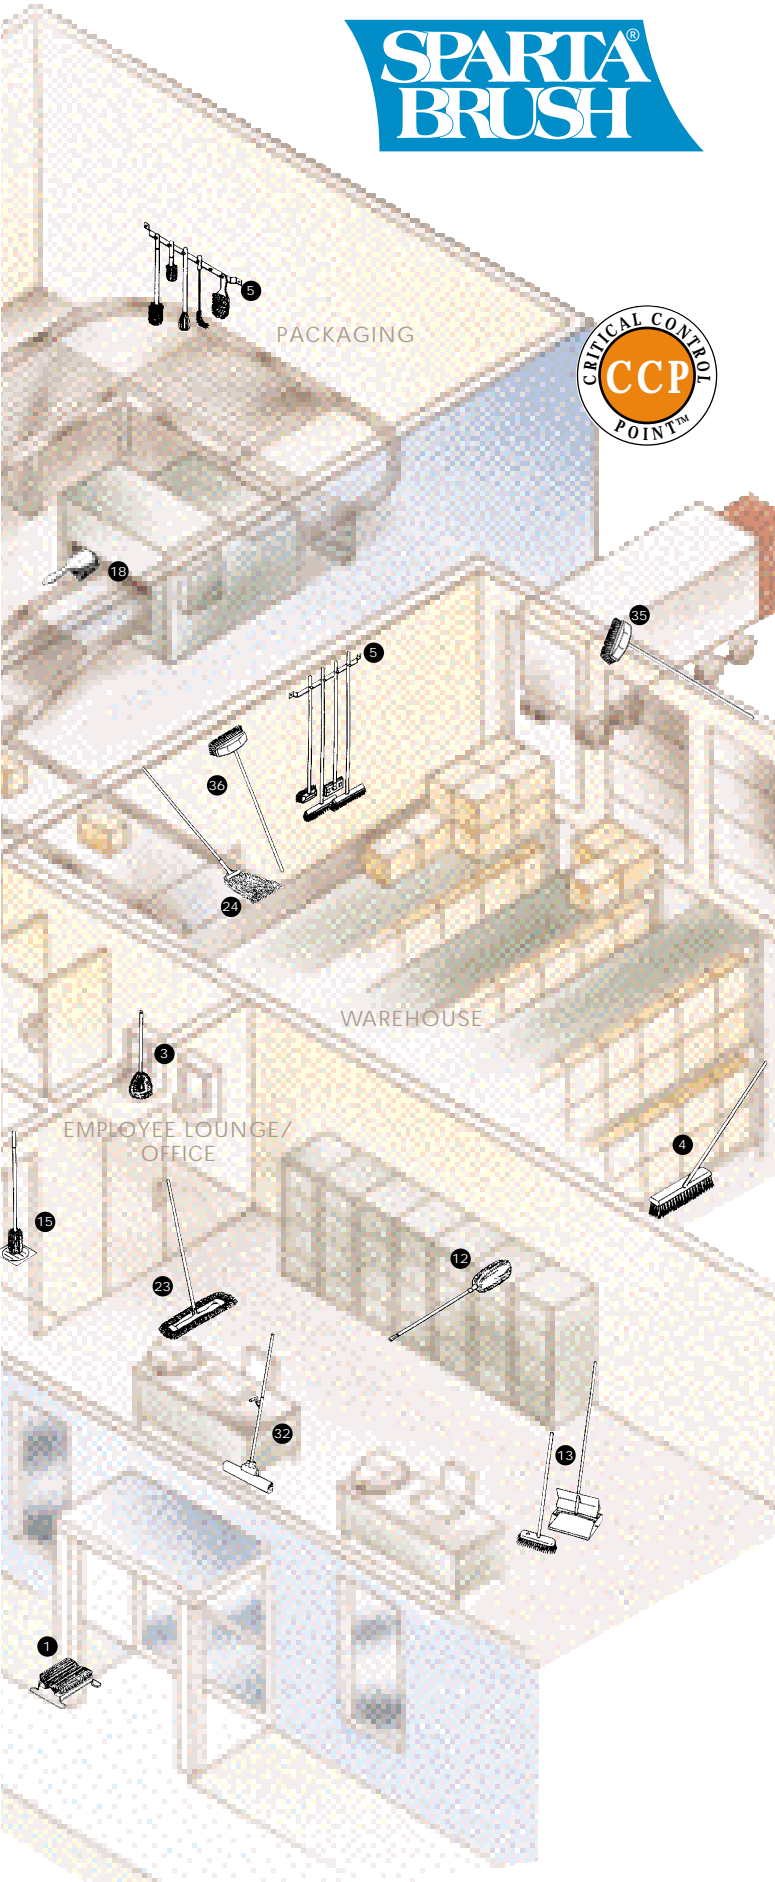

Sparta® Spectrum® Color-Coded Brushes are your facility's HACCP partner. Our Spectrum® Brushes are a key group of CCP (Critical Control Point) Products™ designed to promote safe food handling and help prevent hazardous cross-contamination. Sparta® Spectrum® Color-Coded Brushes can easily be implemented into any facility's HACCP program to minimize the potential of cross-contamination and promote food safety.

Carlisle's recommended Color-Code Plant Applications:

- Red = Receiving/Raw Materials
- White = Processing/Food Contact Surfaces
- Yellow = Process/Non-Food Contact Surfaces
- Green = Prep/Wash Size Reduction
- Blue = Packaging

Black, Brown, and Tan color-coded products are also available.
